SKILLS SUMMARY

Languages: Python, JavaScript

- **Frameworks**: HTML and CSS
- **Tools/Platforms**: Github, MongoDB
- **Soft Skills**: Leadership, Problem-Solving Skills, Communication, Project Management, Adaptability

---

PROJECTS

Educational Resources :

November 2024

Educational resource websites provide valuable tools for students and teachers, offering supplemental learning materials, interactive activities, and professional development opportunities. These platforms support personalized learning with resources like lesson plans, tutorials, and test prep, often accessible for free or at a low cost. Popular sites like Khan Academy, Coursera, and OpenStax make quality education available to a broader audience, encouraging lifelong learning and academic success.

Water Resources :

A water resources website provides essential information on conservation practices, water quality, and sustainable use. It offers educational resources, community programs, and advocacy updates to engage visitors in protecting water. Users can also find practical tools, tips, and data to make informed choices and reduce their water footprint.

ACHIEVEMENTS

- **Secured 4th Rank in Hack − A − Thron 1.0 :** August 2024
  Among 400+ participants in Github
